

# Countdown to Opening Our New Library

The new Library represents much more than the relocation of the existing Library in the new building. Our new Library will be a larger and more flexible space, providing areas for reading and studying, internet access and business centre services and an expanded permanent collection of books and periodicals for members to enjoy. Hours of staff supervision will be expanded and a section of the Library will be dedicated to young people age 10 and up.

Here are some of the highlights of this exciting new facility:

- A 20 percent increase in the number of books available
- Quiet areas for reading
- Flexible seating arrangements that can be adjusted to facilitate Book Club Meetings and other library related events
- Internet access with four computer terminals provided and "hot zone" service for notebook computers with wireless internet access
- Business centre services from copying to binding
- An expanded selection of magazines, newspapers and periodicals, some of which will be duplicated in the dining areas in the Main Clubhouse and Family Clubhouse
- Online encyclopedia and other resources for adults and students alike
- Study carrels and work tables for students doing homework after school
- Coffee, cappuccino and espresso machine (with hot water capability for tea drinkers)
- Mineral water dispenser

The Library Working Group, Club Librarian Yuleen Yen and the management team will also be working in the months ahead to develop programmes, activities and special events to complement this wonderful new facility.
